Summary

Data Analyst with hands-on experience in SQL, Python, Power BI, and Excel, specializing in sales analysis, dashboard development, KPI reporting, and business process automation. Experienced in managing business data, analyzing 25K+ records, and developing management software to support data-driven decision-making.

Skills

Programming: SQL, Python, Basic Machine Learning

Libraries: Pandas, NumPy, Matplotlib, Seaborn, Scikit-learn, TensorFlow

Analytics Tools: Power BI, Advanced Excel, Google Sheets, Power Query, DAX, EDA, Statistics

Development: Django, HTML, CSS, Bootstrap, Google Apps Script, PostgreSQL, MySQL, AI Tools

Experience

Data Analyst | *Pikpart, Faridabad*

3 Months

- Managed and analyzed sales data to monitor business performance, sales trends, and operational activities.
- Developed interactive dashboards and presented daily, weekly, and monthly reports to management.
- Cleaned, organized, and validated business data using Excel, Google Sheets, SQL, and Python.
- Built management tools, including an Expense Claim Management System, to automate business processes.

Data Analyst Trainee | *Ducat, Faridabad*

Jul 2025 – Jan 2026

- Cleaned and transformed datasets using Python and SQL to improve data quality and usability.
- Performed EDA and statistical analysis to identify trends, correlations, and actionable insights.
- Developed Power BI and Excel dashboards tracking 10+ KPIs for business reporting.

Projects

Team Seeds Management Software | *Django, PostgreSQL, Python, HTML, CSS, AI*

Sep 2026

- Developed a responsive business system for order assignment, tracking, and inventory management.
- Implemented role-based access for administrators to assign orders to multiple team members.
- Built product, stock, quantity, and order management functionality using Django and PostgreSQL.
- Integrated in-app and push notifications for real-time assignment and status updates.

Expense Claim Management System | *Google Sheets, Excel, Apps Script, HTML, AI*

Aug 2026

- Built a system for submitting, reviewing, verifying, and tracking salesperson expense claims.
- Created separate user and management interfaces for claim submission, approval, and tracking.
- Used Google Sheets as a centralized database for managing claim and employee information.
- Automated data validation, reporting, status updates, and notifications using Apps Script.

Blinkit Sales Dashboard | *Power BI, SQL, Excel, DAX* | [Source Code](#)

Dec 2025

- Developed an interactive dashboard analyzing sales, customers, products, and inventory trends.
- Cleaned and transformed 25K+ records using SQL, Excel, and Power Query.
- Created KPIs for total sales, AOV, quantity, delivery performance, and product trends.
- Generated actionable insights to support sales and inventory decision-making.

Education

B.Tech, Computer Science & Engineering | *JCD Memorial College of Engineering, Sirsa* 2022 – 2026 | *CGPA: 8.0/10*

Class XII (Science) | *Govt. Model Sanskriti Sr. Sec. School, Sirsa*

2022 | 82%

Class X | *Jai Shree High School, Sirsa*

2020 | 91%
